

# Hi, I'm Chathuranga Wijesundara Mudiyansele.

## Professional Summary

A seasoned developer with 10 years of experience in enterprise solutions development including blockchain and mobile apps for companies with clients in Scandinavia, the US, and the UK.

## Experience

- **SENIOR FULL STACK ENGINEER** Sep 2021 - Current  
*FreshWorks Studio, Victoria, Canada*  
Project: Oliu - ATB Financial
  - Designed and developed Oliu Studio and microservices using NestJS, TypeScript, React, PostgreSQL, Apigee, Stripe, and GCP.
  - Participated in product design reviews to deliver input on functional requirements, schedules, and potential problems.
  - Debugged code by reviewing implementation analyses, configuration files, and individual code pieces to locate the sources of problems.
  - Supported product design reviews by providing expertise in areas such as functional operations, design usability, and expected issues.
  - Tracked bugs, monitored resolutions, and worked with developers on complex issues.
  - Worked well in an Agile environment to effectively plan and carry out tests on products at different stages of development, production, and maintenance.
- **SENIOR TECHNICAL LEAD** Jun 2020 - Sep 2021  
*Wiley, Colombo, Sri Lanka*
  - Managing a team of developers and software testers.
  - Designing and developing software for new cloud-native applications (AWS).
  - Maintaining engineering best practices in the team.
- **ARCHITECT** Apr 2020 - Jun 2020  
*Virtusa, Colombo, Sri Lanka*
- **LEAD TECHNICAL SPECIALIST** Sep 2017 - Mar 2020
